

*2015 Water Quality Report*  
*Addendum*  
*City of Lake City Water System*

*We monitored for Unregulated Contaminants (UCs) in 2014 as part of a study to help the U.S. Environmental Protection Agency (EPA) determine the occurrence in drinking water of UCs and whether or not these contaminants need to be regulated. At present, no health standards (for example, maximum contaminant levels) or likely sources have been established for UCs. However, we are required to publish the detected analytical results of our UC monitoring in our annual water quality report. For the complete list of results, including the non-detected contaminants, contact any of our staff at 386-466-3350. If you would like more information on the EPA's Unregulated Contaminants Monitoring Rule, please call the Safe Drinking Water Hotline at (800) 426-4791.*

<b><i>Contaminant</i></b>	<b><i>Date of Sampling (mo/yr)</i></b>	<b><i>Level Detected</i></b>	<b><i>Range</i></b>	<b><i>Likely Source of Contamination</i></b>
Chlorate	5/2014 & 11/2014	267	224-309	Unknown
Chromium-6	5/2014 & 11/2014	0.036	ND – 0.074	Unknown
Strontium	5/2014 & 11/2014	175	166-187	Unknown

“ND” means not detected and indicates that the substances was not found by laboratory analysis.
