The purpose of addenda #1 is to answer written questions received to date.

Question 1: The north side of the parking lot appears to be getting extended further north. The detail provided is not to scale. How many feet north will the existing be extended? I do see the parking locations that will be added, but where the plain white extends pass the shaded area looks to be an extension of asphalt? Please explain.

**Answer: We are not doing any work at this time around existing northwest entrance. Parking lot will not be extended, just evening it up. Area has been marked to show what areas needed to be asphalted. See attachment**
