

**ADDENDUM #1
TO
SPECIFICATION AND CONTRACT DOCUMENTS**

March 30, 2012

TO: ALL PRE-BID ATTENDEES

FOR: ITB-014-2012
Cathodic Protection Deep Anode

This addendum sets forth changes and/or additional information as referenced and is hereby made a part of and should be attached to the subject Specifications and Contract Documents.

Contractor must acknowledge receipt of all addenda with proposal on the form provided herein.

The purpose of addenda # 1 is to provide answers to pre-bid conference questions.

1. Is the site designed out? **Yes**
2. What about delivery of project material? **Materials may be delivered to our warehouse at 200 NE Gum Swamp Road. Contractor will be responsible for relocating to project site.**
3. Responses about the placing of the deep anode:

Must stay inside the City property in the back left corner of the site, close to the fence line.

Drop cable that goes to the rectifier must be rerouted once anode bed is put in.

Drop cable must tie to gas line at the fence that runs along the back of site; the City will set the connection.

City will handle power to rectifier.

Line must be trenched in to the rectifier.

City will set pole.

4. What lines are out there? **A gas line and a sewer line that runs to the lift station. Contractor is responsible for the line locates.**
5. Was it 4 – 5 anodes or 5 – 6? **One hole with 4-5 anodes; plan for 5.**
6. Will hole have to be logged before anodes are installed? **Yes**
